SEE NOTICE ON LAST PAGE

Our Finishes Will Harmonize With Any Interior Decoration or Color Scheme

In the average home, each room contains many colors even though the prevailing or dominant color be of a kind. The solution for harmony, then, is to find fixtures so colored as to harmonize with any color or shade. "Impossible" do you say? It is not impossible. Our fixtures have color which is so scientifically applied that no matter what the prevailing color scheme of the room, or where no thought has been given to color arrangement, of furniture, hangings, wall coverings and etc., that they will not only harmonize but seem to actually "take on" the particular keynote of the prevailing tone or outstanding color. They act as a *key* which ties together all of the colors, producing an exceedingly satisfactory result.

Silvernia Finish

These fixtures are not entirely of mat or dull effects, but are relieved by metal glint high lights giving us the Silvernia finish. Silvernia is a combination of Silver effect, plus the primary colors so scientifically applied, not decided, but shaded and carefully graded. From a few steps distant one receives the same impression as of seeing a diamond with its colors of the spectrum.

Antique Gold Finish

The same things said of Silvernia are also true of the Antique Gold, except the beautiful effect of Antique Gold is used as the background. with the primary colors blending very harmoniously. It will be quite noticeable that the colors which we use in producing the effect are repeated throughout the room.

Tokalon Finish

For those that may desire something different than the gold and silver effects, we offer our famous *Tokalon Finish*. Our Tokalon finish has been made Famous by use on an *exclusive* high quality line, and will be found in some of the best homes.

Tokalon is an all enameled finish and is a rare combination of the primary and secondary colors in tiny specks, which are softened by shadow tones, so that not one color obtrudes itself beyond the others. You can readily see Tokalon resolves itself to harmonize with the general scheme of tone.

Note on the following page the simple reasons why our three finishes "Must Harmonize" with any thing of color according to *Natural Law*.

Harmony in Color the Keynote to Contentment

Our Rosalind Line of Lighting Requisites are bound to harmonize with any woodwork, any wall coverings or hangings, any furniture or rugs. The explanation is simple.

Everything in nature possesses color. There are but three primary colors. (Note figure (1) below) namely, red, blue, and yellow. Red and yellow produce orange, yellow and blue make green and blue and red make purple. Shades such as Lavender, pink, etc. are but variations of their particular "Mother" colors. Black and white are not considered as colors.

We have in red, yellow, blue, orange, green and purple six of the seven colors of the spectrum. The seventh Indigo is only another shade of blue (Note figure No.2).

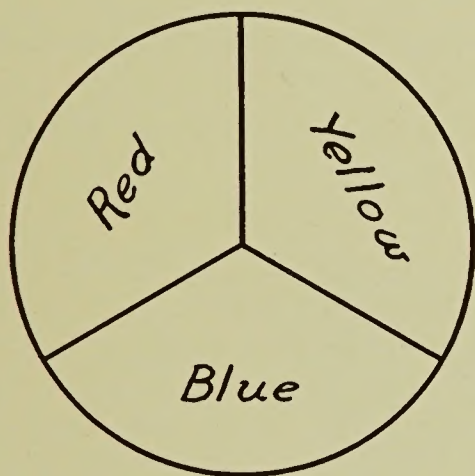

Fig. 1

The Primary Colors

*Red and Yellow = Orange
Red and Blue = Purple
Blue and Yellow = Green*

*Only one other color in
Nature. Just another
blue - Indigo.*

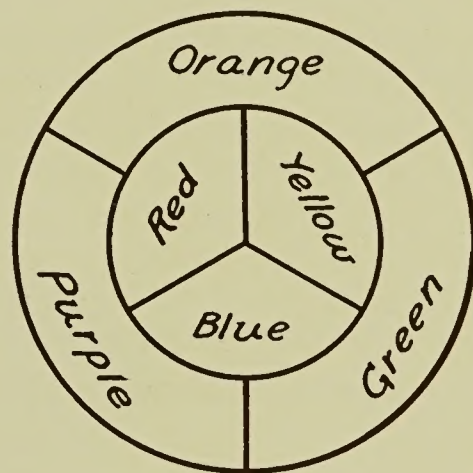

Fig. 2

It must necessarily follow that if these colors are used judiciously in combinations in fixtures, the fixtures will preforce find themselves in harmony, with any other article in the room no matter what the color of the articles. The reason is that the color of every article will not only find itself repeated in the fixtures, but will also find its harmonic opposite. This is a scientific fact. Nature has made it so.

The result is harmony, and harmony always means contentment.

The buying public feels what it likes, even though it cannot always express its wants in specific terms. It is up to the dealer to help. Where he appreciates his position and has the courage to break away from the purely price tradition and sincerely desires to serve his customer in selecting harmonic lighting equipment he is meeting his just reward to which he is entitled, and to which the satisfied customer most cheerfully contributes, the reward of bigger and better business, and a more gracious standing in his community.

His is the self satisfaction of having done and doing his share towards the common welfare of his customers in particular and his community in general.

A. W. Reiser.

Please Observe the Following

Fixtures are arranged in numerical order, the last figure of each number indicating the number of lights.

Fixtures will be shipped complete as shown except Electric Lamp Bulbs unless otherwise specified.

Prices of all fixtures illustrated in this catalog include sockets and wiring.

Finishes

All fixtures are finished in Tokalon, Silvernia or Antique Gold.

You may have your choice of any of the above finishes at the same price as listed in this catalog. Be sure to specify finish desired. A description of the finishes will be found on the preceding pages.

Measurements

Lengths given herein are to the lowest point of complete fixture.

The spreads of fixtures are the overall measurements.

Regulation Heights for Installing Fixtures

All Ball Lamp type fixtures except ceiling lights should be installed six feet three inches from the floor to the lowest point of complete fixture.

Candle type fixtures for dining rooms should be installed not higher than five feet six inches from floor to lowest point of complete fixture.

Boxing

All fixtures are packed in Cartons.

We make no extra charge for packing.

Breakage

All goods are carefully packed and when accepted by the transportation company in good condition we will not be responsible for loss or damage.

Transportation Charges

Prices are F. O. B. distribution points and in no instance will we allow transportation charges.

Terms

To dealers having satisfactory mercantile rating and to those with whom we have previously had satisfactory dealings Net thirty days or 2% cash discount will be allowed if invoice is paid within ten days from date of invoice. Dealers not so rated, cash must accompany order, or we will ship C. O. D. provided one third of the invoice price is sent with order.

We operate on a close margin and we kindly ask your cooperation in adhering strictly to the above rules.

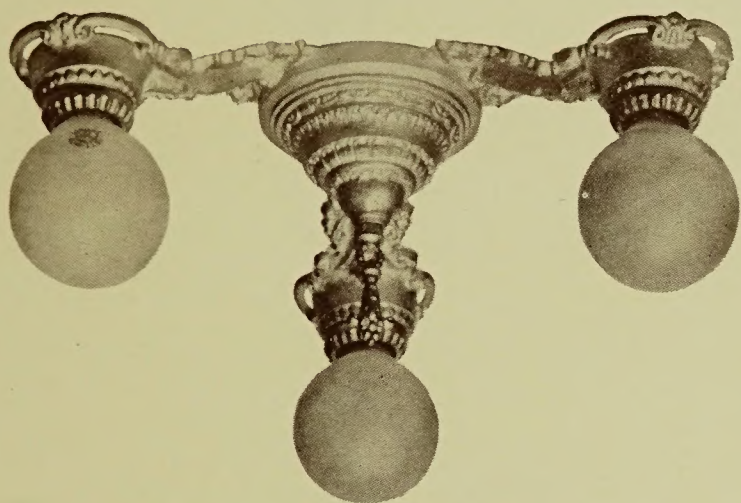

Special Notes

Be sure to specify on order how goods are to be shipped, whether by freight, express or parcel post. In the absence of this information we will use our best judgment.

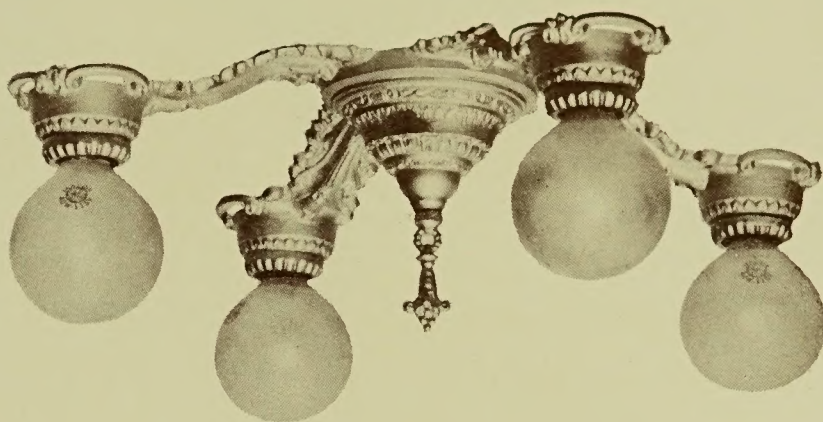

All orders are accepted subject to strikes, accidents or other delays beyond our control.

All prices quoted herein are subject to change without notice.
